Donation

\$75/Head

Australian Rotary Health

*On a sunny day in February 2009, to commemorate of the passing of Kate the year prior, we hosted the first Pearl Day - an informal gathering of friends for food, drinks, and the planting of a tree, aiming to create something positive out of a profound loss. From this, the day has grown, and with your ongoing support and generosity, has raised \$23,000 to date. This year, we'd like to get closer to our target of \$33,000. Once that target is met, the money will be made available via scholarship to Australian PhD students specialising in early detection tests for cancer, with the help our our friends at Australia Rotary Health.*

*For more information about where your money will be going, please see <http://www.australianrotaryhealth.org.au/About/Where-Your-Donations-Goes.aspx>. Any further questions will be warmly received by Robert Mactier via email.*

*We're looking forward to seeing you (and your pearls) for a lunch on the lawn. Friends and family are welcome (please include names in your RSVP), as are additional donations to help us on our way!*
