

March for Masto

Saturday 28th February 2015

**The Australasian Mastocytosis Society
supporting International Rare Disease Day
- Annual Walkathon -**

**It's difficult to say, but harder to live with
Mastocytosis/Mast Cell Activation Disorder.**

"Masto" is very rare and effects both children and adults. In fact, it's so rare that most medical practitioners haven't even heard of it. Without any support from the government, The Australasian Mastocytosis Society (a non for profit organisation), are trying to raise funds with the goal of finding a much needed cure and they need your help!

**Join the "March for Masto" Walkathon on International Rare Disease Day
Saturday 28th February 2015 - 9am registration for a 10am start
Catani Gardens, St Kilda.**

Please get involved. If you can't join us on the day, you can make a donation.

**Visit www.mastocytosis.com.au for more information
or call the Fundraising & Event Manager on 0424 103 505.**
