

Honour for ROMAC

Her Excellency, Ms Quinton Bryce AC, Governor-General of the Commonwealth of Australia, has honoured Rotary and ROMAC by agreeing to be ROMAC's patron in Chief

ROMAC operates with the honorary services of specialist surgeons and physicians at the leading hospitals in our major Australian capitals.

ROMAC are pleased to announce a bequest of \$65,000 from the income of a private trust administered by ANZ Trustees.

Transport for the children to be given treatment, and living expenses for mother or father and their child while awaiting operations have risen recently, and, although the surgeons give their services free, the costs of the operation and aftercare involve considerable expense.

Rotarians freely give their time to organise local transport and accommodation, co-ordinate the arrival of the children from their Asia-Pacific homes, and find children who cannot get the skilled surgery they need in their home country.

Richmond Rotary Club have assisted the Southern Region of ROMAC in many ways, through the services of Dr Janice Peeler, Dr Janice Kesterton and Southern Region Co-ordinator John Benger.
